

# WRC SAFARI RALLY KENYA

---

## STAGE FLASH!

**Date:** Friday, June 23<sup>rd</sup>

**Day:** 2

**Flash N°:** 5

**Stage:** SS 5: LOLDIA 2

**Distance:** 19.17Km

**Weather:** Warm, windy and humid

**Road conditions:** Dry, rocky dusty

**TEMPERATURE:** 22°

---

### **CAR 69: Kalle ROVANPERÄ / Jonne Halttunen**

When the stage was drying up it got much slipperier. I think we made a small mistake on the set-up because we expected to have more grip in the afternoon. I had a lot of understeers all the time, we are going to lose some time there for sure.

### **CAR 11: THIERRY NEUVILLE/ MARTJIN WYDAEGHE**

The feeling was good, the drive was good. The grip is very low I think, we are even slower than this morning, but generally the feeling was good.

### **CAR NO 18: TAKAMOTO KASUTA / AARON JOHNSTON**

A zebra came in front of me. Sorry to Zebra

### **CAR 4: ESAPEKKA LAPPI/JANNE FERM**

It more slippery than in the morning which I was not expecting. In some corners at the beginning you have good grip then it becomes really bad.

### **CAR NO 8: OTT TÄNAK / MARTIN JÄRVEOJA**

We managed to improve the suspension a bit, it feels a bit more comfortable now.

### **CAR 17: SEBASTIAN OGIER / VINCENT LANDAIS**

# WRC SAFARI RALLY KENYA

My strategy is a bit different. I tried to drive more clean and gain the performance from the tyres. It's only in the last stage that the risk is very high.

## **CAR 6: DAINIEL SORDO /CANDIDO CARRERA**

It was good. Much more slippery than before because it's getting dry. In the first corner we went wide, but anyway, I am quite happy.

## **CAR NO 7: PIERRE-LOUIS LOUBET /NICHOLAS GILSOUL**

Under braking, in the middle there was a big step and we broke the wheel there.

He stopped 11.3km into the stage to change a wheel.

## **CAR No 9: JOURDAN SERDERIDIS/ ANNDY MALFOY**

I think the grip is better but it's loose in some parts. More or less, it's not so bad.
