*Final stage of Day Two:*

### **CAR 69: Kalle ROVANPERÄ / JONNE HALTTUNEN**

It was quite okay. Quite soft in places with really big holes and stones and stuff, proper Safari-spec. A lot of surprises, and it's a high-speed stage so not easy.

### **CAR NO 8: OTT TÄNAK / MARTIN JÄRVEOJA**

We were not even cautious, that's just our speed. It was a clean one, for sure quite rough with some surprises in places. I don't feel really comfortable to go any faster.

### **CAR 33: EFLYN EVANS / SCOTT MARTIN**

I think it was more of a bush than a tree, which we can probably be happy about! I got crossed up in these tricky ruts and didn't manage to catch it in time.

### **CAR 17: SEBASTIAN OGIER / VINCENT LANDAIS**

*(Leading the rally by 22.8sec).*

It's been a good day. Except for the hybrid issue this morning we had a perfect day, so we can be happy.

### **CAR 4: ESAPEKKA LAPPI/ JANNE FERM**

It was just a clean stage, I didn't try to do anything special. I was a bit careful but I think you should be in these conditions.

## **CAR 6: DAINIEL SORDO / CANDIDO CARRERA**

We took a hairpin and we had all the dust in front of us. We were stopped for 10sec to clarify all the dust. It was so destroyed this stage, afterwards, and we drove like a stupid after this.

## **CAR NO 18: TAKAMOTO KASUTA / AARON JOHNSTON**

The puncture was maybe in the last 10km. There was a sharp stone in the ruts and I had no chance to avoid it. We also went a little bit wide in a high-speed section and there was a big tree branch.

## **CAR 21: KAJETAN KAJETANOWICS / MACIEJ SZCZEPANIAK WRC2**

It's been a good day. Nothing special we are looking forward to tomorrow. The track is destroyed

## **CAR 22: GREGOIRE MUNSTER / LOUIS LOUKA (Leader WRC2)**

This one a bit tricky, sandy and deep but we managed what we wanted to achieve in this stage and happy that the first day is over.

## **CAR 23: MARTIN PROKEP / ZDENEK JURKA**

We just celebrating because it's a good thing for us to finish. I know it means nothing though we are happy.
