CAR 11: THIERRY NEUVILLE/ MARTJIN WYDAEGHE

I don't know if it was a push but there was not hole left that I didn't go through! It was a bit shaky and I had to push back my helmet a few times, but it was fun.

CAR N0 7: PIERRE-LOUIS LOUBET /NICHOLAS GILSOUL

For sure it's important to finish but I am just trying to enjoy. At the moment I am struggling a bit but it's how we work and how we learn. Let's continue.

CAR NO 8: OTT TÄNAK / MARTIN JÄRVEOJA

Nothing much to say, we are just trying to get it through at the moment. One rear damper has leaked the oil out so we are just trying to get it through now.

CAR 6: DAINIEL SORDO /CANDIDO CARRERA

We can't fight with the people in front, they are so difficult to follow. The only thing we can do is try to stay here at the end and make some points.

CAR 33: EFLYN EVANS/ SCOTT MARTIN

There's no problem, I'm driving clean and tidy but it looks like Taka is doing a better job at the moment. Let's see.

CAR 69: KALLE ROVANPERÄ / JONNE HALTTUNEN

Definitely now, with Lappi also dropped out, there are such big gaps behind and if nothing happens it's impossible to catch Seb by driving. I don't want to take huge risks anymore.

CAR 17: SEBASTIAN OGIER / VINCENT LANDAIS

I just try to do my job and not do any mistakes. Hopefully we stay out of trouble up until the end of the day now.
